3848 FREDONIA DRIVE, • LOS ANGELES, CALIFORNIA • 90068

PUBLISHED EACH MONTH SINCE 1955

VOLUME 33, 1987

1987 ANNUAL SUPPLEMENT

INDEX AND REFERENCE LIST

Title Index	1	Subject Index	8
Author Index	5	Periodical List	11

INDEX

This is the annual index for DATA PROCESSING DIGEST for the year 1987, Vol. 33, Nos. 1-12. The index is divided into three sections: the list of titles as they appeared in the Digest, a list of authors, and a subject index. All articles have at least one subject citation.

Italicized titles are books, periodicals or reports. The numbers following the entries indicate issue and pages in which the item is found. The number preceding the hyphen is the issue; the numbers following the hyphen are the pages.

TITLE

Access Controls Within an IBM System/34 Environment, 4-23
 ACL/PC Audit Software For Personal Computers, 1-21
 Acquisition Insecurity, 10-20
 Adapting Electronic Mail To Management's Needs, 10-11
 Adding Context To Computing, 1-13
Advanced Database Techniques, 7-25
 AI Meets the Corporate Mainframe, 4-15
 Analysis Of Variance Of Workloads, 1-8
ANSI Structured COBOL: Advanced, 5-25
 Application Of A Fourth Generation Environment, 2-16
 The Application Of Prototyping To Systems Development: A Rationale and Model, 1-16
 The Architecture Of Lisp Machines, 7-17
 Are We Automating Yesterday?, 10-20
 Are We Expecting Too Much From Strategic IS?, 3-3
 Around the World In 24 Hours, 4-27
 Artificial Intelligence In Medicine: Where Do We Stand?, 10-26
 Artificial Intelligence: A Natural In CIM Applications, 8-15
 Artificial Intelligence—Secret Weapon In the Battle To Improve Productivity, 9-19
 ... As JIT Emerges, 10-24
 AS/RS Plugs Into Automated Systems, 4-27

Audit Concerns With Local Area Networks, 10-21
 Audit, Control, and Security Of Micro-Mainframe Systems, 1-2
 Auditing a High-Volume Transaction Processing System, 5-4
 Auditing In the Prototyping Environment, 10-21
 Auditing Telecommunications Costs, 7-22
 Auditing Voice Messaging Systems, 4-24
 Auto Industry Breaks Speed Limits With Pick & Electronic Imaging, 12-22
 Automate First With Simulation Software, 1-25
 Automation Requires Focused Approach, 2-22
 Avoiding Printer Catastrophes, 3-22
 The Backlog Stops Here, 9-13
 Banking On a Safety Net, 1-5
The BASIC Handbook: Encyclopedia of the BASIC Computer Language, 3-26
 "Batram" Increases Speed Of Business Processing, 3-22
 Becoming a Technical Leader: An Organic Problem Solving Approach, 3-26
 The Best Data Processing Measures, 4-2
 Beta Testing, 10-14
 Biometric Personal Identification Systems: The Potential For Bank Use, 2-19
 Blending MS-DOS and Unix, 3-15

Blueprint For a New Shop: Space, Cables, Coding, Testing, 9-16
A Book On C, 9-27
 Brazil's Informatics Law: The U.S. Perspective, 3-24
 BTRON: The Business-Oriented Operating System, 8-21
 Build Savings As the WORM Turns, 9-22
 Building Auditability Into EDP Systems—A Concept Whose Time Has Come and Key Considerations In Making It a Success, 2-20
 Building Up User Courage, 2-5
 Built By Association, 5-18
 Cache Controllers Ease I/O, 3-22
 CASE: Cranking Out Productivity, 9-4
 A CASE Of Unknown Identity, 12-11
 The CASE Systems Near Fruition, 9-5
 The Challenge Of Integrated Manufacturing, 11-17
 Cheaper By The Gigabyte—An Overview Of Optical Storage, 4-29
 Choosing an Accounting System, 2-16
CICS/VS Command Level With ANS COBOL Examples, 5-26
 Classifying Desktop Publishing, 1-24
Cleaning Up a Computer Mess, 1-27
 Cloning Skills For Planning, 12-4
The COBOL 85 Example Book, 9-29
 COBOL 85: Living In the Shadow Of 4GLs, 1-14

2 DATA PROCESSING DIGEST 12/87

- Cobol On a PC: A New Perspective On a Language and Its Performance, 5-8
The COBOL Programmer's Design Book, 9-30
 Cobol Shapes Up, 3-16
 COBOL Standards: The Need For Change, 8-12
 A Combined User and Development Testing Effort, 12-4
 Comparing the Super Systems: A Pick Man Looks At UNIX, 6-2
 A Comparison Of Software Cost Estimation Tools, 8-7
 Computer Architectures For Artificial Intelligence Processing, 5-24
The Computer Comes Of Age: The People, the Hardware and the Software, 6-24
 Computer Crime Investigation and Investigators, 3-6
 The Computer Iconoclast—20 Popular Vendor Claims, 5-6
 Computer Information Systems and Strategic Corporate Planning, 9-17
 Computer Leasing Under Tax Reform Bill, 4-8
 Computer Phobia: Four-Point Approach Helps End Users Overcome Anxieties, 11-10
Computer Risk Manager: A Manual For EDP Contingency Planning, 8-23, 11-12
 Computer Security Issues and Trends, 11-13
 A Computer Security Glossary For the Advanced Practitioner, 3-7
 Computer Security Information Sources, 3-9
Computer Standards & Interfaces, 3-5, 6-24
Computer & Telecommunications Acronyms, 3-25
Computers and Computing Information Resources Directory, 10-29
 Computers—Summer 1987 Survey Update, 11-20
 Computers—Survey Update, 3-13
 Computers—Winter 1987 Survey Update, 5-22
Computing Information Directory, 11-21
 Confessions Of Departmental Users, 7-10
 The Connection Machine, 8-21
 Contingency Planning & Recovery Report, 9-21
 Controlling the Project Development Cycle Part 1—Guideline for a Project Manager, 4-12
 Controlling the Project Development Cycle Part 2—Profile Of a Successful Project Manager, 4-13
 Controls In New Application Systems. Where Does the Responsibility Rest?, 2-20
 Copyright and Fair Trade Laws Against Software Piracy in European Civil Law Countries, 12-23
 Corporate Data Models Flourish From the Bottom Up, 7-4
 Corporate Graphics: Take a Look At the Big Picture, 2-3
 Corporate Responsibility and the MIS Manager, 4-3
 Cost Control: Where Has All the Money Gone? 1-10
- The Cost Of Internally Developed Applications: Analysis Of Problems and Cost Control Methods, 1-9
 CPU History Repeats Itself: Will a Return To CISC Follow the Return to RISC?, 4-11
 The Crash Of '87?, 8-22
 Creating an Information Center Strategy, 5-22
 Creating Standalone Users, 2-6
 Creating and Using a Features Data Base, 2-24
 "CUBIT" or "ARC"—Which Is Best For File Compression?, 1-22
- The Dangers Of Dabbling In Expert Systems, 9-18
Data Base Organization For Data Management, 8-23
 Data Communications Services To the Rescue, 3-5
 Data Input Enters a New Era, 11-11
 Data Management For Engineers: Current Capabilities, Future Directions, 6-21
 Data PBXs Offer an Alternative to Incompatible Systems, 1-17
 Data Security That Works, 1-3
 Data Structured Software Maintenance: The Warnier/Orr Approach, 12-12
Data Structures and Program Design, 9-27
Data Structures Using Modula-2, 7-26
 A Defect Prevention Methodology, 4-11
 Demystifying Expert Systems, 7-17
 Departmental Computing's Political Paradox, 7-10
 Design and Test In Europe, 2-27
 Designing a Data Base For Production Systems, 8-15
 Designing an Effective Request For Proposal, 4-4
 The Destiny Of DES, 5-1
 Develop Your Own Expert System, 8-14
 Developing an Expert System For Engineering, 2-23
Directory Of Special Libraries and Information Centers, 3-25
 Disaster Recovery: The "No-Plan" Plan, 6-19
 Discouraging User Dependency, 11-10
 Do You Know Where Your Data's Been?, 8-4
Documenting an Organization's Computer Requirements, 5-27
 Does Unix Matter?, 2-14
 Does Your Insurance Cover More (Less) Than You Think?, 7-7
 Don't Reinvent the Wheel, 12-17
DOS To OS Conversion, 10-30
 DP Cost Justification (Assessing a New Approach), 6-14
 D.V.O.S. Computer Technology—For Renault Dealers and Customers, 11-18
- EDI Seeks Wider Role In Business, 8-17
 EDP System Acceptance Testing—A Neglected Topic In the System Development Cycle and What You Can Do To Improve It, 3-9
 Effective Financial Planning Model, 8-8
 Effective Use Of DP Consultants Requires Communication, 4-4
 Eight DOS Shells That Make Computing Easier, 3-19
 80386 Computers, 12-24
 An Emerging Standard For Graphics, 6-2
- End-User Computing: Investing For High Returns, 7-13
 End Users Drive Benefit Analysis, 10-6
 Entrypoint 90, 12-25
 Essential Elements For the Development/Review Of a PC Policy, 4-24
 European Community Opens Its Telecommunications Network: Legal Aspects Of the "Green Paper," 12-23
 Europe's Factory Factor, 8-16
 The Evolving Role Of Capacity Management, 4-1
 Executive Info Systems: But Do They Inform?, 10-9
 Executive Information Systems, 7-19
 Executive Information Systems Put Strategic Data At Your CEO's Fingertips, 1-22
 Expert Systems Development: Current Problems, Future Needs, 7-18
 Expert Systems: The DSS Of the Future?, 2-17
 The Experts Are Coming, 10-24
 Exposures, Control Objectives and Opportunities For Auditors and Control Experts In Data Communications Networks, 12-18
- Facsimile: New Technologies, New Applications, 5-24
 Failure To Comply With FCC Regulations May Be Breach Of Warranty, 10-28
File Design and Programming, 6-25

REFERENCES

The staff of Data Processing Digest regularly monitors an average of 150 computer, trade, educational, scientific, and business management periodicals for appropriate articles to digest each month. The list of periodicals varies widely from year to year, and even from month to month, as new periodicals appear, and others cease publication or change their editorial direction. Every June issue and the year-end annual supplement include all the publishers' addresses for your convenience. During other

months of the year, only the periodicals referenced in that issue are given. All addresses which do not include a country are in the U.S.

Please request copies of originals from the publisher of the periodical. Do not write to *Data Processing Digest*, as we do not copy or reprint, and your request will be delayed. Books should be ordered from their publishers or from a local technical book store.
